Logistics Autumn Conference – December 2nd 2016

Digital Transformation impacts Logistics

Be it connected processes, track and trace or business forecasting via big data, the digital transformation and Industry 4.0 are the new reality and no longer just buzzwords. At this year's **Logistics Autumn Conference**, the Cluster for Logistics will investigate "How Digitization makes Supply Chains more efficient, agile and customer-focused".

Our main Topics

- Digital Supply Chains
- E-Commerce and Visibility
- Integrated Planning and Execution
- Supply Chain Analytics
- Procurement 4.0
- Finding the right skills

We will update the programme as we secure more speakers and we invite you to register already on our website.

For more information, contact the Cluster for Logistics at +352 42 39 39 848 or via info@c4l.lu

Logistics Autumn Conference December 2nd 2016

Digital Transformation impacts Logistics

Our final programme is being determined but we secured the new director of the Luxembourg Center for Logistics (LCL), Benny Mantin, as speaker. Mr Mantin will join us via **videoconference**.

A recent PwC study about Industry 4.0 that shows the trends and the expectations of the logistics sector in this field is also on the menu.

Address:

Chamber of Commerce
L-1615 Kirchberg
Luxembourg

Agenda:

15:30 Arrival

16:00 Start and Welcome by Mr Carlo Thelen, Director General of Chamber of Commerce and President of the Cluster for Logistics

Conference Speakers are being determined
