

FOR
GREATER
GOOD

DuPont offers to medical device manufacturers innovative products as DuPont™ Tyvek® for sterile Packaging. Used in virtually every form of sterile medical packaging, Tyvek® is the material of choice for pouches, lidstock, vent patches and headers for bags.

DuPont™ Tyvek® provides to pharmaceutical companies trusted protection for wearer and aseptic process, for active packaging for desiccants, for sterile barrier systems, for final product packaging and for temperature protection during shipment. Only DuPont manufactures Tyvek®. ® and ™ indicate trademarks or registered trademarks of DuPont or its affiliates.

SciPharm S.à.r.l. was established in 2010 to develop pharmaceutical treatments against orphan diseases. In addition, SciPharm is involved in the development and distribution of high precision ambulatory, as well as implantable, infusion pumps. In relation to this, SciPharm is developing a platform that connects to medical devices to enable remote monitoring as well as distant programming of these devices. The design of the platform is such that both MDR and GDPR requirements are met.
