LuxVisual

On the 27th and 28th November the second edition of the B2B fair Salon Contact took place at LuxExpo in the Kirchberg. Contact was organised by LuxExpo and the communications company Brain & More in partnership with the Ministry of the Economy and the Ministry of Middle Classes as well as the Luxembourg Chamber of Commerce and Métiers.

The Salon was aimed at SMEs and SMIs in Luxembourg and the Greater Region with a view to providing a matchmaking platform where they could meet potential partners, suppliers and new clients. The two day event included conferences, workshops and above all, networking. The idea being that business decision makers (and potential entrepreneurs) could benefit from having access to specialists knowledge and privileged contacts all under one roof.

More than 90 companies from Luxembourg and the Greater region took exhibition space. BR visited some of the stand and, judging by the comments we heard, the second edition of Salon Contact was a sound success...
