

// *Reasons to locate to Luxembourg*

The Chamber of Commerce and Pricewaterhouse Coopers have published a new edition of their brochure "Luxembourg: Where Else?" which aims to help attract businesses to the Grand Duchy. In part one, the brochure spells out Luxembourg's key advantages - location, high levels of communication with the government, commitment towards R&D and innovation, and a multicultural high-skilled workforce. The second part addresses companies in particular industries, setting out Luxembourg's development opportunities by industry. The brochure is bundled with a DVD including a 5 min film with testimony from business people and the Minister of Economy and Foreign Trade and will be used during trade missions. A website www.setupineurope.com provides interactive features.
