

## Opportunities in the subcontinent

**F**ast-growing India is now the ninth largest economy in the world. A trade mission to the country next March will allow Luxembourg businesses to discover the opportunities on offer. Growth has averaged 7% per year since 1997 with the economy working at the cutting edge in a wide variety of sectors, not least telecommunications, information-technology-enabled services, pharmaceuticals, textiles, chemicals, food-processing, steel, transportation equipment...
